### Business Purpose

The purpose of this report is to monitor your grant's financial activity compared to the current budget. For each grant's FOP combination, the following totals are displayed by the budget account code: the current budget, the net revenue and expenses for both the selected period (current period) and for the inception of the grant through the selected period (ITD), and the current balance of all open encumbrances. The final column, Available Budget Balance compares the total of the actual earnings, actual spending, and encumbrance balance to the current year's budget. This report will not tell you if a transaction will process because it does not consider pooled organization codes and budgets at the fund, orgn, and program code level (BAVL).

A drill thru is a link within a document that opens a new report with similar or more detailed information.

A Transaction Detail report will open if you select a hyperlinked amount in the Current Budget column.

If you select a hyperlinked amount in the MTD column, the Transaction Detail report will display the transactions of the selected month.

Document	Doc Ref	Trans Description	Trans Date	BAC	BAC Description	Account	Amount
