NEW PATHWAY NET PASSWORD REQUIREMENTS

When a password is reset, Pathway Net generates a random eight-character password for the user. The temporary password is sent via email. If you do not receive the email, contact the PCard Team at Irma.Gomez@ttuhsc.edu or Michelle.Ensminger@ttuhsc.edu after April 1, 2008.

To enhance security, Pathway Net has modified the password requirements to the following:

- Must contain at least seven characters
- **Passwords are case sensitive.** Users must enter their passwords exactly as specified to access the application.
- Passwords can contain lower case letters, upper case letters, numbers, or special characters.

**Users can continue to use their existing passwords until they expire,** they need to have their passwords reset, or choose to change their passwords even if they do not meet the new password standard.

If you have any questions, we are only an email away!
