Manage Alert Subscriptions

Key Concepts

As a Cardholder, you can set alerts so notifications are automatically set via email and/or to your mobile device when certain selected activity occurs on your account, for example, when statements are available and when payments are received.

There are two types of alerts to which you can subscribe:

- **Transactional Alerts** – An alert is sent when a defined condition or threshold is met, for example an alert is triggered when a payment is received or when a defined percentage of your credit limit is met.
- **Account Alerts** – An alert is sent when there are status changes to your account, for example when your address is changed or when your statement is available.

It is possible to enter up to five email addresses and customize when you will receive your alerts based on:

- Time zone
- Time of day
- Day of week

One you have subscribed to mobile alerts in the CitiManager site, you will receive a confirmation text message on your mobile device with a four-digit PIN. The four-digit PIN must be entered on the PIN confirmation number screen in the CitiManager site.

Once the PIN has been entered, the CitiManager site will send another text to your mobile device confirming activation. The confirmation text message is sent any time you change or enter a new mobile phone number.

**On-Demand Mobile Alerts**

In addition, once you have registered your mobile device number in the CitiManager site, you have full access to on-demand mobile alerts. On-demand mobile alerts allow you to request and receive immediate information such as account balances, payment amounts and due dates.
