Why Should I Care? Have You Heard the News?

Have you heard the news about the revamped Business Affairs News? The goal of the revamp included: creating a one-stop shop where users could find Business Affairs News information in one place

and improving the structural design to allow users to search for the news information they want.

Highlights:

- One-Stop Shop Users can find the News, Tips, Hot Topics and Reports on one page. No more navigating between multiple pages.
- Search There are two ways to search: The Text search feature allows users to enter any text and the page will show only the news documents that contain the search term in the title. The Category filter feature limits the list to documents from predefined categories available in the Filter By Category dropdown.

Why Should I Care?

You should care about the revamped Business Affairs News because the news information available will keep you up to date on everything Business Affairs. The News is available from the WebRaider portal, F&A Work Tools tab, under the Business Affairs portlet, in the Business Affairs section.
