

Guidelines for Rental and Use of Inflatable Amusement Rides at TTUHSC authorized events

For TTUHSC to rent or contract for the use of an inflatable at any TTUHSC authorized event, the owner operator must demonstrate compliance with the Texas Department of Insurance (TDI) and State rules by presenting the following:

- A copy of the current Inspection Certificate (AR-100),
- A copy or photograph of the compliance sticker for each inflatable to be used, and
- A current certificate of insurance with general liability limits of at least \$1,000,000 per occurrence with the appropriate entity as the certificate holder.

In order to demonstrate that the above requirements have been met, TTUHSC departments **MUST** sign and attach the [Risk Management Inflatable Acknowledgement](#) form to their requisition request. Failure to provide any of the listed requirements at least ten (10) business days prior to the event date may result in the inflatable being prohibited on TTUHSC property.
