The Swift Card Program is a Mastercard Reward card that can be used as a debit or credit transaction to pay participants in patient studies. Payment Services is the administrator of this card program.

The cards have no value until they are activated. Once activated, the participant can immediately use their card wherever Mastercard is accepted.

Departmental Users will be able to sign into the system and activate cards - all you need is an internet connection. The activation process is simple.

Getting Started

Complete and submit the User Set Up and Card Request Form.

The **User Setup** section should be completed for the employee that will be activating cards.

For the **IRB#** and **Study Name/Project#** fields, only one should be populated. All study's involving human subjects have an IRB#. If you have an IRB#, the Study

Name/Project# field should be left blank. If your study doesn't require an IRB#, then please enter a Study Name/Project#.
